Dimensions of Teversal School

Length = ~~35 ft 10 in~~ 42 feet

Breadth = 21 ft

Height = 13 ft 8 in

Taken June 1889.

Teversal School

1880

January 5th

Monday - I (Jane Newbold) took charge of the school of this parish which up to the present has not been under Government Instruction - I gave children an examination and found them all very backward ^{especially} in numeration - divided them into 3 classes having 15 in 1st class - 14 in 2nd class and 11 in 3rd class making a total of 40 - Sarah Hooker Monitor for the Infants.

Friday 9th - Admitted 3 on Tuesday and 1 on Wednesday making a total of 44 -

day 16th - Admitted 3 on Monday - several children away this week through illness which is very prevalent in the village -

Friday 23rd - Admitted 4 on Monday - several still away owing to bad weather and illness -

Friday 30th - Had a very small school this week - many still away through illness -
