## TEVERSAL CRICKET FIELD.

Permission was given by Lady Carnarvon for this field to be used partly by the men and partly by the boys, so as to promote by mutual arrangement the advantage of both classes. These arrangements have not worked satisfactorily, and the ground has been neglected and is now in a bad condition. Lady Carnarvon regrets this, as her object was to encourage genuine sport and recreation, and under the circumstances an alteration must be made, and Lady Carnarvon will take the field into her own hands, allowing the use of it for two days in the week for the men, and four days in the week for the boys, subject to reasonable conditions to be imposed for the good working of the sports and to prevent injury to the ground.
